Flowering Shrubs

What would your garden be like without flowers? Flowering shrubs beautify and add color to the yard. Shrubs help form the basic framework of your gardens, around which you can design flower gardens. Annual flowers come and go with the seasons, but flowering shrubs are permanent fixtures in the flower gardens. After their blooming season (which may vary from spring to summer to fall) flowering shrubs, and their leaves, continue to give the garden fullness, beauty, and character for the rest of the year. Many flowering shrubs attract birds with their berries and provide brilliant fall foliage. Flowering shrubs are at their best when blooming, and many can stand alone as specimens or used for focal points. Use plenty of them in your landscaping.

Berberis mentorensis -
MENTOR BARBERRY

Moderate growing rounded shrub. Height 5 to 7 feet - spread 5 to 7 feet. Sun or part shade. Yellow flowers in spring. Dull dark red berries in late summer. Drought resistant. Small thorns make an excellent barrier. Makes a good hedge plant.

Berberis thunbergii 'Atropurpurea' -
RED JAPANESE BARBERRY

Moderate growing rounded shrub. Height 4 to 6 feet - spread 4 to 6 feet. Likes sun. Good fall colors. Yellow flowers in spring. Red leaves turn reddish-orange in fall. Rugged plant. Requires sun for red leaves. Good hedge plant. Small thorns.

Berberis thunbergii 'Aurea' -
YELLOW LEAF JAPANESE BARBERRY

Slow growing vase-like shrub. Height 2 to 3 feet - spread 2 to 3 feet. Sun or part shade. Good fall colors. Small orangish flowers in early spring. Small bright red berries in fall. Bright yellow leaves - a little shade is advised in hot areas. Great for small hedges. No thorns make trimming very easy.

Berberis thunbergii aurea 'Golden Nugget' -
GOLDEN NUGGET JAPANESE BARBERRY

Slow growing vase-like shrub. Height 1 to 2 feet - spread 1 to 2 feet. Sun or part shade. Good fall colors. Small compact plant. Bright yellow leaves - the leaves do not burn as easily as other yellow barberries. Great for small hedges.

Berberis thunbergii aurea 'Sunsation' -
SUNSATION JAPANESE BARBERRY

Slow growing vase-like shrub. Height 3 to 4 feet - spread 3 to 4 feet. Sun or part shade. Good fall colors. Medium plant. Bright yellow leaves need a little shade in hot areas. Great for medium size hedge.

Berberis thunbergii 'Bogozam' -
BONANZA GOLD BARBERRY

Slow growing mounding shrub. Height 1 to 2 feet - spread 2 feet. Sun or part shade. Brilliant golden foliage. Likes full sun. Thorny deciduous shrub.

Berberis thunbergii 'Monomb'
CHERRY BOMB BARBERRY

Slow growing compact rounded shrub. Height 3 to 4 feet - spread 3 to 4 feet. Deep crimson foliage with bright red berries in fall and winter. Likes full sun. Slower growing than Crimson Pygmy.

Berberis thunbergii 'Crimson Pygmy' -
CRIMSON PYGMY BARBERRY

Slow growing rounded shrub. Height 2 to 3 feet - spread 2 to 3 feet. Likes sun. Good fall colors. Deep yellow flowers in early spring.

Excellent small hedge plant. Attractive small plant. Brightest colored leaves in full sun. Small thorns.

Berberis thunbergii 'Helmond Pillar' -
HELMOND PILLAR COLUMNAR BARBERRY

Slow growing upright shrub. Height 3 to 5 feet - spread 1 to 3 feet. Likes sun or partial shade. Good fall colors. Excellent columnar plant with reddish leaves. Brightest colored leaves in full sun. Small thorns.

Berberis thunbergii 'Kobold' -
KOBOLD BARBERRY

Slow growing rounded shrub. Height 1 to 2 feet - spread 2 feet. Sun or part shade. Bright green foliage. Suited for low borders or mass plantings. Shear after blooming in spring to shape plant.

Berberis thunbergii 'Rosy Glow' -
ROSY GLOW BARBERRY

Moderate growing vase-like shrub. Height 3 to 4 feet - spread 2 to 3 feet. Likes sun. Good fall colors. Red orange flowers in early spring. Bright red berries in fall. Striking red, white and pink new leaves. Colors fade to red with age. Good hedge plant. Best colored leaves in full sun.

Berberis thunbergii 'Royal Burgundy' -
ROYALBURGUNDY BARBERRY

Slow growing rounded shrub. Height 2 to 3 feet - spread 2 to 3 feet. Likes sun. Good fall colors. Excellent medium hedge plant. Deeper, burgundy-red leaves than Crimson Pygmy. Small thorns.

Buddleia davidii 'Black Knight' -
BLACK KNIGHT BUTTERFLY BUSH

Rapid growing vase-like shrub. Height 6 to 10 feet - spread 6 to 10 feet. Likes sun. Fragrant deep purple flower spikes in mid-summer. Attracts butterflies. Prune heavily in early spring to 1' to 2' tall to help maintain dense shrub.

Buddleia davidii 'Charming' -
CHARMING BUTTERFLY BUSH

Rapid growing vase-like shrub. Height 6 to 10 feet - spread 6 to 10 feet. Likes sun. Fragrant deep pink flowers in summer. Attracts butterflies. 6-12" flower spikes. Provide good drainage. Prune heavily in spring to keep shrub dense.

Buddleia davidii 'Ellen's Blue' -
ELLEN'S BLUE BUTTERFLY BUSH

Moderate growing upright shrub. Height 10 to 12 feet - spread 10 to 12 feet. Silvery foliage. Long panicles of blue flowers with orange center. Best blue of the butterfly bushes.

Crimson Pygmy Barberry

**Buddleia davidii 'Guinevere' -
GUINEVERE BUTTERFLY BUSH**

Fast growing spreading shrub. Height 6 to 8 feet - spread 6 to 8 feet. Likes sun. Dark purple fragrant flowers in summer. Low to moderate water needs.

**Buddleia davidii 'Harlequin' -
HARLEQUIN BUTTERFLY BUSH**

Moderate growing spreading shrub. Height 4 to 6 feet - spread 3 to 5 feet. Likes sun. Attracts butterflies. Reddish-purple flower spikes mid-summer. Variegated green and yellow leaves. Prune after leaves emerge in spring.

**Buddleia davidii 'Monrell' -
STRAWBERRY LEMONADE BUTTERFLY BUSH**

Fast growing spreading shrub. Height 6 to 8 feet - spread 4 to 6 feet. Leaves are variegated green and creamy yellow. Pink flower spikes in summer. Likes full sun. Cut back in spring; flowers in summer on new growth.

**Buddleia davidii 'Petite Indigo' -
PETITE INDIGO BUTTERFLY BUSH**

Fast growing rounded shrub. Height 4 to 6 feet - spread 3 to 5 feet. Likes full to part sun. Purple flowers mid summer through fall. Airy open form. Attracts butterflies.

**Buddleia davidii 'Petite Plum' -
PETITE PLUM BUTTERFLY BUSH**

Moderate growing spreading shrub. Height 4 to 6 feet - spread 3 to 5 feet. Likes sun. Attracts butterflies. Long arching, purplish flower spikes mid-summer. Prune heavily in spring. Nice dwarf shrub for hot sunny areas.

**Buddleia davidii 'Petite Snow' -
PETITE SNOW BUTTERFLY BUSH**

Moderate growing spreading shrub. Height 4 to 6 feet - spread 3 to 5 feet. Likes sun. Long arching, white flower spikes mid-summer. Prune heavily in spring to help keep the plant small. Nice dwarf shrub for hot sunny areas.

**Buddleia davidii 'Pink Delight' -
PINK DELIGHT BUTTERFLY BUSH**

Moderate growing spreading shrub. Height 4 to 6 feet - spread 3 to 5 feet. Likes sun. Attracts butterflies. Long, arching, pink flower spikes mid-summer. Prune heavily after leaves emerge in spring. Nice dwarf butterfly bush for hot areas.

**Buddleia davidii 'Royal Red' -
ROYAL RED BUTTERFLY BUSH**

Moderate growing spreading shrub. Height 6 to 10 feet - spread 5 to 8 feet. Likes sun. Attracts butterflies and hummingbirds. Long arching, Reddish-purple flower spikes mid-summer. Prune heavily in spring, after leaves emerge.

**Buddleia davidii 'White' -
WHITE BUTTERFLY BUSH**

Moderate growing spreading shrub. Height 6 to 10 feet - spread 4 to 6 feet. Likes sun. White flower spikes in mid-summer. Attracts butterflies. Long arching branches, prune heavily early spring. Drought resistant.

**Buddleia weyeriana 'Honeycomb' -
HONEYCOMB BUTTERFLY BUSH**

Moderate growing shrub. Height 5 to 6 feet - spread 5 to 6 feet. Likes sun. Creamy yellow flowers in summer. Silvery green foliage. Prefers well drained soils. Less cold hardy than other Buddleias.

**Caryopteris clandonensis -
BLUE MIST BLUEBEARD**

Slow growing rounded shrub. Height 2 to 4 feet - spread 2 to 4 feet. Likes sun. Powder blue flowers in mid-summer. Blooms for a long time. Shear for compact habit. Nice blue gray foliage. Excellent shrub for later summer color.

**Caryopteris clandonensis 'Dark Knight' -
DARK KNIGHT BLUEBEARD**

Moderate growing mounding shrub. Height 2 to 4 feet - spread 2 to 4 feet. Likes sun. Deep blue flowers in mid-summer. Drought tolerant. Compact plant, bluish-green leaves. Cut back after bloom for repeat blossoms. Attracts butterflies & bumblebees.

**Caryopteris clandonensis 'First Choice' -
FIRST CHOICE BLUEBEARD**

Moderate growing rounded shrub. Height 2 to 4 feet - spread 2 to 4 feet. Likes sun. Bright blue flowers in late summer. Drought tolerant. Cut back after bloom for repeat blossoms. Attracts butterflies & bumblebees.

**Caryopteris clandonensis 'Grand Bleu' -
GRAND BLEU BLUEBEARD**

Moderate growing low mounding shrub. Height 1 to 3 feet - spread 1 to 3 feet. Deep blue flowers summer through fall. Likes full sun. Foliage and flowers are fragrant. Top growth dies back each winter.

**Caryopteris clandonensis 'Longwood Blue' -
LONGWOOD BLUE - BLUEBEARD**

Moderate growing rounded shrub. Height 3 to 5 feet - spread 3 to 4 feet. Likes sun. Dark blue flowers in mid summer. Nice small informal hedge or showy small border plant. Trim after blooming. Attracts bumble bees.

**Caryopteris clandonensis 'Minbleu' -
PETIT BLUE - BLUEBEARD**

Slow growing rounded shrub. Height 2 to 2.5 feet - spread 2 to 3 feet. Likes sun. Nice, dwarf shrub for rock gardens. Dark blue flowers in mid summer. Nice small informal hedge or showy small border plant. Trim after blooming. Attracts bumble bees.

**Caryopteris clandonensis 'Pink Chablis' -
PINK CHABLIS BLUEBEARD**

Slow growing, rounded shrub. Height 1 to 2 feet. Spread 2 to 4 feet. Likes full sun and very well-drained soil. Clear pink flowers in late summer and fall. Attracts butterflies. Great for rock gardens.

**Caryopteris clandonensis 'Summer Sorbet' -
SUMMER SORBET BLUEBEARD**

Moderate growing mounding shrub. Height 2 to 3 feet - spread 2 to 3 feet. Likes sun. Blue flowers in late summer. Variegated green leaves with golden edging.

**Caryopteris clandonensis 'Worcester Gold' -
WORCESTER GOLD BLUEBEARD**

Moderate growing mounding shrub. Height 2 to 3 feet - spread 2 to 3 feet. Likes full sun. Light blue flowers in summer. Golden yellow foliage is brightest in full sun.

**Caryopteris divaricata 'Snow Fairy' -
SNOW FAIRY BLUEBEARD**

Moderate growing mounding shrub. Height 2 to 4 feet - spread 2 to 4 feet. Likes sun. Soft blue flowers in late summer. Variegated foliage is green and white.

**Caryopteris incana 'Jason' -
'SUNSHINE BLUE' BLUEBEARD**

Slow growing rounded shrub. Height 2 to 3 feet. Spread 2 feet. Likes full sun and very well-drained soil. Yellow leaves and dark blue flowers. Blooms mid summer.

**Chaenomeles japonica 'Cameo' -
CAMEO FLOWERING QUINCE**

Moderate growing spreading shrub. Height 2 to 4 feet - spread 3 to 4 feet. Likes sun. Cameo-pink flowers in early spring, right after forsythia. Small, greenish, non edible, apple-like fruit in fall. Low compact grower - very colorful early spring.

Butterfly Bush

**Chaenomeles japonica 'Iwai Nishiki' -
IWAINISHIKI FLOWERING QUINCE**

Moderate growing spreading shrub. Height 2 to 4 feet - spread 3 to 5 feet. Red double flowers in mid spring. Does not like hot afternoon sun.

**Chaenomeles japonica 'Jet Trail' -
JET TRAIL FLOWERING QUINCE**

Moderate growing spreading shrub. Height 2 to 3 feet - spread 3 to 4 feet. Sun or part shade. Pure white flowers in early spring. Small greenish apple-like fruit in fall. Clusters of white flowers. Very colorful when blooming.

**Chaenomeles japonica 'Low & White' -
LOW & WHITE FLOWERING QUINCE**

Slow growing rounded shrub. Height 2 to 4 feet - spread 3 to 4 feet. Likes sun. White flowers in early spring. Small greenish apple-like fruit in fall. Excellent compact shrub for sunny areas. Trim when blooms fade.

**Chaenomeles japonica 'Minerva' -
MINERVA FLOWERING QUINCE**

Slow growing spreading shrub. Height 3 to 5 feet - spread 3 to 4 feet. Likes sun. Clusters of cherry-red flowers in early spring. Small greenish apple-like fruit in fall. Medium plant - spreading growth habit - excellent foundation shrub.

**Chaenomeles japonica 'Orange Delight' -
ORANGE DELIGHT FLOWERING QUINCE**

Slow growing spreading shrub. Height 3 to 5 feet - spread 3 to 4 feet. Likes sun. Soft-orange flowers in early spring. Small greenish apple-like fruit in fall. Spreading plant - good screening plant - very colorful.

**Chaenomeles japonica 'Super Red' -
SUPER RED FLOWERING QUINCE**

Moderate growing upright shrub. Height 4 to 6 feet - spread 4 to 6 feet. Likes sun. Bright-red flowers in early spring. Small greenish apple-like fruit in fall. Compact shrub, good for foundations. Prune after blooms fade.

**Chaenomeles japonica 'Texas Scarlet' -
TEXAS SCARLET FLOWERING QUINCE**

Slow growing spreading shrub. Height 2 to 4 feet - spread 3 to 4 feet. Likes sun. Scarlet flowers in early spring. Small greenish apple-like fruit in fall. Spreading plant - great for foundation plantings.

**Chaenomeles japonica 'Toyo Nishiki' -
TOYONISHIKI FLOWERING QUINCE**

Moderate growing spreading shrub. Height 4 to 6 feet - spread 3 to 4 feet. Likes full sun to part shade. Red, white, and pink flowers in early to late spring. 2" yellow/green fruit in late summer. Thorny.

**Clethra 'Ruby Spice' -
RUBY SPICE CLETHRA**

Moderate growing, upright shrub. Height 4 to 6 feet. Spread 3 to 5 feet. Likes full sun to partial shade. Fragrant, reddish-pink flowers in summer. Yellow color in fall. Attracts butterflies. Great shrub to add something 'different' in your yard. Low maintenance.

**Clethra alnifolia 'Sixteen Candles' -
SIXTEEN CANDLES CLETHRA**

Slow growing compact shrub. Height 3 feet- spread 4 feet. Likes part to full sun. Grows well in wet areas. Upright fragrant white flower spikes in summer attract butterflies.

**Cornus alba 'Bailhalo' -
IVORY HALO DOGWOOD**

Moderate growing spreading shrub. Height 5 to 6 feet. Spread 5 to 6 feet. Variegated green and white leaves turn bronze-red in fall. Green stems turn bright red in winter.

Flowering Quince

**Cornus alba 'Elegantissima' -
VARIEGATED RED TWIG DOGWOOD**

Moderate growing spreading shrub. Height 6 to 8 feet - spread 4 to 6 feet. Likes sun. White flowers in spring. Red stems in winter. Green leaves with white edges. Adds color to the landscape year round. Spreads by suckers.

**Cornus alba 'Gouchaulti' -
MOTTLED DOGWOOD**

Moderate growing spreading shrub. Height 6 to 8 feet - spread 4 to 8 feet. Sun or part shade. Likes acid soil when first planted. Green stems turn red in winter. Green leaves mottled with yellow-white edges. Very striking colors spring, summer, fall, and winter.

**Cornus sanguinea 'Midwinter Fire' -
MIDWINTER FIRE DOGWOOD**

Moderate growing spreading shrub. Height 8 to 10 feet. Spread 6 to 10 feet. Green stems turn yellow, orange and red in winter. Great shrub to add color in yard during winter months.

**Cornus sericea 'Isanti' -
ISANTI RED TWIG DOGWOOD**

Slow growing rounded shrub. Height 4 to 5 feet - spread 4 to 6 feet. Sun or part shade. Good fall colors. Cream white flowers in summer. White berries in fall. Compact grower - bright red branches in the fall and winter.

**Cornus sericea 'Kelsey' -
KELSEY DWARF DOGWOOD**

Slow growing mounding shrub. Height 2 to 3 feet - spread 2 to 3 feet. Sun or part shade. Good fall colors. Plant for winter color. Compact grower - brilliant red upright branches in winter. Good shrub for small spaces.

**Cornus stolonifera -
RED TWIG OR RED OSIER DOGWOOD**

Rapid growing spreading shrub. Height 6 to 12 feet - spread 6 to 10 feet. Sun or part shade. Good fall colors. White flowers in late spring. Suckers freely. Colorful red branches in winter. Tolerates wet areas but does not like alkaline soils.

**Cornus stolonifera 'Bailey' -
RED OSIER DOGWOOD**

Moderate growing upright shrub. Height 5 to 7 feet - spread 4 to 6 feet. Sun or part shade. Good fall colors. Cream clusters of flowers in spring. White to bluish berries in late summer. Brilliant red twigs glow in winter - deep green summer foliage. Suckers freely. Tolerates wet areas but doesn't like alkali soil conditions. Most common variety of Red Twig Dogwood.

**Cornus stolonifera 'Farrow' -
ARCTIC FIRE DOGWOOD**

Rapid growing upright shrub. Height 3 to 4 feet - spread 4 to 5 feet. Sun or part shade. White flowers in late spring. Red stems give winter appeal. Prune after bloom.

**Cornus stolonifera 'Flaviramea' -
YELLOW TWIG DOGWOOD**

Rapid growing spreading shrub. Height 6 to 10 feet - spread 5 to 8 feet. Sun or part shade. Good fall colors. White flowers in late spring. White berry clusters in late summer. Brilliant yellow bark in winter. Nice plant for screening and for informal hedges. Brightens the yard. Plant with red twig varieties for added contrast during winter months.

**Corylus avellana contorta 'Red Majestic' -
RED MAJESTIC CONTORTED FILBERT**

Slow growing upright shrub. Height 8 to 10 feet- spread 6 to 8 feet. Purple-red foliage. Full to part sun. Twisted branches and purple nuts and catkins provide winter interest.

Red and Yellow Dogwood

**Corylus contorta -
CONTORTED FILBERT**

Slow growing upright shrub or tree. Height 6 to 10 feet - spread 6 to 10 feet. Likes sun. Does well in containers. Twisted branches and limbs are very decorative. Unusual ornamental plant that is most attractive without leaves. Branches are great for flower arrangements.

**Cotinus coggygia -
GREEN SMOKE TREE**

Moderate growing rounded shrub or tree. Height 15 to 25 feet - spread 15 to 25 feet. Sun or part shade. Green leaves. Good fall colors. Purple wispy flowers in summer give a smoke-like effect - water well when young.

**Cotinus coggygia 'Kolcot' -
MAGICAL GREEN FOUNTAIN SMOKE TREE**

Moderate growing compact shrub. Height 4 to 6 feet - spread 6 to 8 feet. Likes full sun. Likes hot locations. Brownish-pink flowers in early summer. Prune late winter to stimulate new growth for best color.

**Cotinus coggygia 'Royal Purple' -
ROYAL PURPLE SMOKE TREE**

Moderate growing rounded shrub or tree. Height 10 to 20 feet - spread 8 to 12 feet. Likes sun. Good fall colors. Pinkish-gray flowers in summer, give appearance of smoke. Dark purple leaves edged with red. Can be pruned into shrub or tree. Prune in spring to stimulate growth. Prune after blooming to control size.

**Cotinus dummeri 'Grace' -
GRACE PURPLE SMOKE TREE**

Moderate growing rounded shrub or tree. Height 10 to 15 feet - spread 8 to 12 feet. Likes sun. New leaves are wine-red maturing to dusky-red. Pinkish flowers in early summer. Leaves turn orange-red in fall. Easily pruned into shrub or tree.

**Cotoneaster acutifolius -
PEKING COTONEASTER**

Moderate growing spreading shrub. Height 6 to 10 feet - spread 4 to 8 feet. Likes sun. Small white flowers in spring. Large black berries in fall. Excellent for informal a hedge or fence line. Attracts birds. Berries are very colorful in winter.

**Cotoneaster apiculatus -
CRANBERRY COTONEASTER**

Slow growing spreading shrub. Height 2 to 4 feet - spread 6 to 10 feet. Sun or part shade. Good fall colors. White flowers in spring. Large red berries in fall. Very hardy, colorful groundcover. Best for large unconfined areas.

**Cotoneaster congestus -
PYRENEES COTONEASTER**

Slow growing rounded evergreen shrub. Height 2 to 3 feet - spread 2 to 3 feet. Sun or part shade. Pinkish flowers in spring. Red berries in fall. Good low growing shrub. Great for rock gardens. Can be used as small hedge plant.

**Cotoneaster dammeri 'Coral Beauty' -
CORAL BEAUTY COTONEASTER**

Rapid growing spreading evergreen shrub. Height 18 to 24 inches - spread 4 to 8 feet. Sun or part shade. Small white flowers in spring. Small coral colored berries in late summer. Good groundcover or bank cover - small rich-green leaves.

**Cotoneaster dammeri 'Lowfast' -
LOWFAST COTONEASTER**

Moderate growing spreading evergreen shrub. Height 1 to 2 feet - spread 8 to 12 feet. Likes sun. White flowers in spring. Red berries in late summer. Low growing groundcover. Great for large areas.

Purple Smoke Tree

**Cotoneaster divaricatus -
SPREADING COTONEASTER**

Moderate growing upright shrub. Height 6 to 10 feet - spread 4 to 6 feet. Likes sun. Good fall colors. Small pinkish flowers in spring. Showy small red berries in fall. Good border plant, hedge, or informal screen. Very showy in fall.

**Cotoneaster horizontalis -
ROCK COTONEASTER**

Moderate growing spreading shrub. Height 2 to 3 feet - spread 10 to 15 feet. Sun or part shade. Good fall colors. White flowers in spring. Red berries in late summer. Stiff horizontal branching. Best in large areas. Attractive in or out of leaf.

**Cotoneaster salicifolius 'Repens' -
SPREADING WILLOWLEAF COTONEASTER**

Moderate growing spreading evergreen ground cover. Height 12 to 15 inches - spread 6 to 8 feet. Sun or part shade. White flowers in spring. Red berries in fall. Good groundcover, outstanding in mass plantings. Best left untrimmed.

**Cytisus 'Lena' -
LENA SCOTCH BROOM**

Moderate growing mounding shrub. Height 3 to 4 feet - spread 3 to 4 feet. Likes sun. Fragrant red, with yellow center, flowers in spring. Unusual appearance for yard. Prune after bloom for compact plant. Small, insignificant leaves.

**Cytisus praecox -
MOONLIGHT BROOM**

Moderate growing rounded shrub. Height 3 to 5 feet - spread 4 to 6 feet. Sun or part shade. Fragrant bright-yellow flowers in spring. Shear after bloom for compact growth habit.

**Cytisus praecox 'Allgold' -
ALLGOLD SCOTCH BROOM**

Fast growing rounded shrub. Height 5 to 6 feet - spread 5 to 6 feet. Deep yellow sweet-pea like flowers cover the shrub in spring. Broom like tufts of green stems in winter. Prefers well drained soils. Thrives in hot dry locations.

**Cytisus purgans -
PROVENCE BROOM**

Moderate growing rounded shrub. Height 2 to 3 feet - spread 3 to 4 feet. Likes sun. Yellow flowers in late spring. Compact growth with little or no shearing needed. Flowers have little or no fragrance.

**Cytisus scoparius 'Burkwoodii' -
BURKWOOD BROOM**

Moderate growing rounded shrub. Height 4 to 8 feet - spread 4 to 8 feet. Sun or part shade. Maroon-red flowers in spring. Pretty in bloom - seeds freely - may become a pest. Small insignificant leaves. Prune after blooming.

**Cytisus scoparius 'Leo White' -
LEO WHITE SCOTCH BROOM**

Moderate growing rounded shrub. Height 5 to 8 feet - spread 5 to 8 feet. Sun or part shade. White blooms in late spring and early summer. Small insignificant leaves. Prune after blooming.

**Cytisus scoparius 'Lilac Time' -
LILAC TIME BROOM**

Moderate growing rounded shrub. Height 4 to 8 feet - spread 3 to 5 feet. Sun or part shade. Deep reddish-purple flowers in spring. Showy in bloom - shear after bloom for compact habit. More dwarf growth than other varieties.

**Cytisus scoparius 'Minstead' -
MINSTEAD BROOM**

Moderate growing rounded shrub. Height 4 to 6 feet - spread 4 to 6 feet. Likes full sun. White to lilac purple flowers. Small insignificant leaves. Prune after flowering.

**Deutzia gracilis -
SLENDER DEUTZIA**

Slow growing vase-like shrub. Height 2 to 3 feet - spread 3 to 4 feet. Sun or part shade. Clusters of fragrant white flowers in late spring. Flowers profusely covering the branches. Prune after blooming. Good next to house or along fence.

**Deutzia hybrida 'Nikko'-
NIKKO DEUTZIA**

Moderate growing spreading shrub. Height 1 to 2 feet. Spread 3 to 5 feet. Fragrant, double white flowers in early summer. Leaves turn burgundy-red in fall.

**Deutzia hybrida 'Pink-a-Boo'-
PINK-A-BOO DEUTZIA**

Moderate growing upright shrub. Height 5 to 8 feet - spread 5 to 8 feet. Likes sun. Pink flowers in mid spring. Great for fence lines. Very attractive and showy in spring. Good border shrub. Prune after blooming.

**Enkianthus campanulatus -
RED VEINED ENKIANTHUS**

Slow growing rounded shrub. Height 3 to 6 feet - spread 2 to 5 feet. Likes partial shade. Likes acid soil - good fall colors. Creamy-yellow, bell-shaped flowers in spring. Leaves turn red in fall. Needs some winter protection, and an acid soil.

**Euonymus alata 'Compacta' -
COMPACT BURNING BUSH**

Moderate growing vase-like shrub. Height 4 to 6 feet - spread 4 to 6 feet. Likes sun. Brilliant red fall color. Excellent as a specimen plant or as a hedge. One of the most popular, most showy, plants with red colored leaves in the fall. Sunlight, soil moisture, soil pH, plant vigor, and temperature (first frost date) will control how bright the leaf color will be.

**Euonymus alatus 'Cole's Compact'
COLE'S COMPACT BURNING BUSH**

Moderate growing compact rounded shrub. Height 5 to 8 feet - spread 4 to 6 feet. Prefers full sun. Great red fall color. More compact than other varieties.

**Euonymus alatus 'Fireball'
FIREBALL DWARF BURNING BUSH**

Moderate growing rounded shrub. Height 5 to 8 feet - spread 4 to 6 feet. Dark green foliage changes to brilliant red in fall. Better winter hardiness than other burning bush.

**Forsythia intermedia 'Arnold's Dwarf'
ARNOLD'S DWARF FORSYTHIA**

Moderate growing spreading groundcover. Height 2 to 4 feet - spread 4 to 6 feet. Small yellow flowers in early spring, not as striking as common forsythia. Good groundcover for informal areas and slopes. Likes hot sun. Easy to care for.

**Forsythia intermedia 'Courtaneur'-
GOLD CLUSTER FORSYTHIA**

Slow growing, spreading shrub. Height 3 to 4 feet. Spread 4 to 5 feet. Bright yellow flowers early spring. Bright green leaves all summer. Great for areas that require a smaller shrub than the traditional forsythia.

**Forsythia intermedia 'Fiesta'-
FIESTA FORSYTHIA**

Moderate growing, spreading shrub. Height 3 to 6 feet. Spread 4 to 5 feet. Bright yellow flowers early spring. Leaves have cream yellow center with a green edge. Likes full sun but has best color when protected from hot afternoon sun.

**Forsythia intermedia 'Gold Tide'-
GOLD TIDE FORSYTHIA**

Slow growing, spreading shrub. Height 2 to 2.5 feet. Spread 4 to 5 feet. Bright yellow flowers early spring. Bright green leaves all

summer. Great for an unusual, tall-ground cover or for planting in mass for a low growing shrub.

**Forsythia intermedia 'Lynwood Gold' -
LYNWOOD GOLD FORSYTHIA**

Moderate growing upright shrub. Height 5 to 7 feet - spread 4 to 6 feet. Likes sun. Bright yellow flowers in early spring. Heavy bloomer - stiff upright growth. Trim after blossoms drop. The first shrub to bloom in the spring.

**Forsythia intermedia 'Northern Sun'-
NORTHERN SUN FORSYTHIA**

Moderate growing, spreading shrub. Height 8 to 10 feet. Spread 7 to 9 feet. Large bright yellow flowers early spring. Bright green leaves all summer.

**Forsythia intermedia 'Show Off'
SHOW OFF FORSYTHIA**

Moderate growing upright shrub. Height 3 to 6 feet - spread 5 to 6 feet. Yellow flowers in early spring. Blooms from top to bottom of branches. Prune immediately after flowering. Not much pruning necessary.

**Forsythia intermedia 'Spring Glory'-
SPRING GLORY FORSYTHIA**

Moderate growing upright shrub. Height 5 to 7 feet - spread 3 to 5 feet. Likes sun. Light yellow flowers in early spring. Profuse bloomer-easily forced indoors. The "first" shrub to bloom in the spring. Prune after blossoms drop.

**Forsythia ovata 'Tetragold'
TETRAGOLD FORSYTHIA**

Moderate growing mounded shrub. Height 4 to 6 feet - spread 3 to 5 feet. Yellow flowers in early spring. One of earliest blooming forsythias. Compact arching branches.

**Hibiscus syriacus 'Aphrodite' -
APHRODITE ROSE OF SHARON**

Moderate growing upright shrub. Height 8 to 10 feet - spread 5 to 8 feet. Likes sun. Pink flowers with red eye, in mid summer. Trim to desired shape & size. Small tree or large shrub. Very colorful in late summer.

**Hibiscus syriacus 'Blue Bird' -
BLUE BIRD ROSE OF SHARON -**

Moderate growing upright shrub. Height 10 to 12 feet - spread 6 to 10 feet. Likes sun. Single bluish flowers in mid summer. Prune to desired shape. May be pruned to small tree - somewhat drought tolerant.

**Hibiscus syriacus 'Blue Marlin' -
BLUE MARLIN ROSE OF SHARON -**

Moderate growing upright shrub. Height 8 to 12 feet - spread 4 to 5 feet. Likes sun. Blue flowers in mid summer. Pruning not necessary for flower production.

**Hibiscus syriacus 'Blue River II' -
BLUE RIVER II ROSE OF SHARON -**

Moderate growing upright shrub. Height 4 to 5 feet - spread 3 to 4 feet. Full sun to part shade. All white flower; no 'eye'. Blooms late summer to early fall.

**Hibiscus syriacus 'Blushing Bride'-
BLUSHING BRIDE ROSE OF SHARON -**

Moderate growing upright shrub. Height 10 to 12 feet - spread 6 to 10 feet. Sun or part shade. Double pink flowers in mid summer. Prune to desired shape. May be pruned to small tree - somewhat drought resistant.

**Hibiscus syriacus 'Collie Mullens' -
COLLIE MULLENS ROSE OF SHARON -**

Moderate growing upright shrub. Height 10 to 15 feet - spread 5 to 10 feet. Sun or part shade. Double, rosy-purple flowers in mid summer. Small tree or large shrub. Attractive, dependable bloomer.

**Hibiscus syriacus 'Diana' -
DIANA ROSE OF SHARON -**

Moderate growing upright shrub. Height 10 to 12 feet - spread 6 to 10 feet. Likes sun. Single white flowers in mid summer. Prune to desired shape. Can be pruned to small tree - somewhat drought tolerant.

**Hibiscus syriacus 'Floru' -
VIOLET SATIN ROSE OF SHARON -**

Moderate growing upright shrub. Height 10 to 12 feet - spread 6 to 10 feet. Likes sun. Large, single violet-pink flowers with red center. Blooms late summer and fall. Can be grown as a small tree or large shrub.

**Hibiscus syriacus 'Helene' -
HELENE ROSE OF SHARON**

Moderate growing spreading shrub. Height 6 to 10 feet - spread 4 to 6 feet. Likes sun. White flowers with purple center, in mid summer. Prune to desired size & shape. Excellent small tree or large shrub. Very colorful late summer.

**Hibiscus syriacus 'Lucy' -
LUCY ROSE OF SHARON -**

Moderate growing upright shrub. Height 8 to 12 feet - spread 8 to 10 feet. Likes sun. Double light red blooms late summer to early fall. Heat and drought tolerant.

**Hibiscus syriacus 'Marina' -
BLUE SATIN ROSE OF SHARON -**

Moderate growing upright shrub. Height 10 to 12 feet - spread 6 to 10 feet. Likes sun. Large, single blue flowers with reddish center. Blooms late summer and fall. Can be grown as a small tree or large shrub. More hardy than Bluebird.

**Hibiscus syriacus 'Mathilde' -
BLUSH SATIN ROSE OF SHARON -**

Moderate growing upright shrub. Height 10 to 12 feet - spread 6 to 10 feet. Likes sun. Large, single blushing-pink flowers with red center. Blooms late summer and fall. Can be grown as a small tree or large shrub.

**Hibiscus syriacus 'Minerva' -
MINERVA ROSE OF SHARON -**

Moderate growing upright shrub. Height 8 to 10 feet - spread 3 to 6 feet. Likes sun. Lavender-pink flowers with red center in mid-summer. May be used as shrub or pruned to small tree or screen.

**Hibiscus syriacus 'Minrosa' -
ROSE SATIN ROSE OF SHARON -**

Moderate growing upright shrub. Height 10 to 12 feet - spread 6 to 10 feet. Likes sun. Large, single rose-pink flowers with red center. Blooms late summer and fall. Can be grown as a small tree or large shrub.

**Hibiscus syriacus 'Notwoodone' -
LAVENDER CHIFFON ROSE OF SHARON -**

Moderate growing upright shrub. Height 10 to 12 feet - spread 6 to 10 feet. Likes sun. Medium, single lavender flowers with ruffled center. Blooms late summer and fall. Can be grown as a small tree or large shrub.

**Hibiscus syriacus 'Red Heart' -
RED HEART ROSE OF SHARON -**

Moderate growing upright shrub. Height 6 to 12 feet - spread 4 to 8 feet. Sun or part shade. White flowers with red eye, in mid-summer. Small tree or large shrub. Attractive, dependable bloomer.

**Hibiscus syriacus 'Woodbridge' -
WOODBRIDGE ROSE OF SHARON**

Moderate growing upright shrub. Height 6 to 12 feet - spread 4 to 6 feet. Sun or part shade. Single, rosy purple flowers with red eye, in mid summer. Large shrub or small tree. Attractive dependable bloomer.

Hydrangeas - Please refer to our 'Growing Hydrangea Handout' for more information about varieties and growing requirements and instructions.

**Hydrangea anomala 'petiolaris' -
CLIMBING HYDRANGEA -**

Medium to fast growing plant. Needs trellis for support. Likes cool, sunny area or partial shade. Glossy, dark-green leaves. Clusters of white hydrangea flowers in summer add interest to summer garden areas. Grows best with acid soil conditions and a consistent water supply.

**Hydrangea arborescens 'Annabelle' -
ANNABELLE HYDRANGEA**

Moderate growing shrub. Height 3 to 5 feet. Spread 4 to 6 feet. Likes part shade Bloom mid to late summer. Flower clusters are white and often over 10 inches across. Not drought tolerant.

**Hydrangea macrophylla 'Angel Lace' -
ANGEL LACE HYDRANGEA**

Moderate growing, spreading shrub. Height 4 to 6 feet. Spread 4 to 6 feet. Likes morning sun and afternoon shade. Blooms in late summer. Pink or blue blooms depending on soil pH. Pink in alkaline soils, blue in acidic soils.

**Hydrangea macrophylla 'Berlin Rabe' -
BERLIN RABE HYDRANGEA**

Moderate growing rounded shrub. Height 2 to 3 feet. Spread 2 to 3 feet. Likes morning sun and afternoon shade. Blooms in late summer. Clear pink blooms in mid summer. Compact hydrangea.

**Hydrangea macrophylla "Blue" -
BLUE HYDRANGEA**

Slow growing rounded shrub. Height 4 to 5 feet - spread 3 to 4 feet. Sun or part shade. Likes acid soil. Blue flowers in summer. Needs acid soil to stay blue. Often turns whitish-pink unless soil is acid. Add aluminum sulphate. Trim early spring. *Several Varieties Available* (Nikko Blue, Endless Summer)

**Hydrangea macrophylla 'Blue Wave' -
BLUE WAVE HYDRANGEA**

Fast growing rounded shrub. Height 3 to 6 feet - spread 3 to 6 feet. Sun or part shade. Likes acid soil. Blue flowers in summer. Needs acid soil to stay blue. Often turns whitish-pink unless soil is acid.

**Hydrangea macrophylla 'Endless Summer' -
ENDLESS SUMMER HYDRANGEA**

Moderate growing, spreading shrub. Height 4 to 6 feet. Spread 4 to 6 feet. Likes morning sun and afternoon shade. Blooms on old and new wood; it will bloom every year (unlike many other varieties of Hydrangeas). Likes sun or partial shade. Needs an acid soil to maintain dark blue color. Add sulphur or Aluminum Sulphate each year to maintain acid soil conditions. One of the best blooming varieties of Hydrangeas for this area.

**Hydrangea macrophylla 'Glowing Embers' -
GLOWING EMBERS HYDRANGEA**

Moderate growing rounded shrub. Height 4 to 6 feet - spread 4 to 6 feet. Part to full shade. Pink flowers in summer. Usually has good fall color.

**Hydrangea macrophylla 'Lady in Red' -
LADY IN RED HYDRANGEA**

Moderate growing, spreading shrub. Height 3 to 5 feet. Spread 3 to 5 feet. Likes morning sun and afternoon shade. Pink blooms in summer. Good fall color.

**Hydrangea macrophylla 'Merritt Supreme' -
MERRITT SUPREME HYDRANGEA**

Fast growing shrub. Height 3 to 6 feet - spread 3 to 6 feet. Likes part shade. Deep rose pink flowers in summer.

**Hydrangea macrophylla 'Monrey' -
BUTTONS 'N BOWS HYDRANGEA**

Moderate growing, rounded shrub. Height 3 to 4 feet. Spread 3 to 4 feet. Likes partial to full shade. Good fall color. Pink flowers in summer; needs alkaline soil for best color.

**Hydrangea macrophylla 'Nikko Blue' -
NIKKOBLUE HYDRANGEA**

Moderate growing rounded shrub. Height 4 to 10 feet - spread 2 to 4 feet. Prefers part shade; east exposure by house. Likes moist soils. Blue flowers in summer. Acid soil allows good fall color.

**Hydrangea macrophylla "Pink" -
PINKHYDRANGEA**

Slow growing rounded shrub. Height 4 to 5 feet - spread 3 to 4 feet. Sun or part shade. Likes neutral soil. Pink flowers in summer. Turns pinkish-blue to white in acid soil. Add superphosphate or lime for best pink color. Trim stems before leaves appear. *Several Varieties Available* (Pink N Pretty, Forever Pink)

**Hydrangea macrophylla 'Pink Elf' -
PINKELF HYDRANGEA**

Moderate growing rounded shrub. Height 2 to 3 feet - spread 2 to 3 feet. Part shade. Good for containers or as small shrub. Good fall color.

**Hydrangea macrophylla 'Pretty 'N Pink' -
PRETTY 'N PINKHYDRANGEA**

Moderate growing rounded shrub. Height 4 to 6 feet - spread 3 to 4 feet. Sun or part shade. Pink flowers in summer. Great as an accent or border plant.

**Hydrangea macrophylla "Red" -
REDHYDRANGEA**

Slow growing rounded shrub. Height 4 to 5 feet - spread 3 to 4 feet. Sun or part shade. Pinkish-red flowers in summer. Often fades to pink. Turns pinkish-white in acid soil. Use superphosphate, magnesium, or lime for best color. *Several Varieties Available* (Red N Pretty, Glowing Embers)

**Hydrangea macrophylla 'Red 'N Pretty' -
RED 'N PRETTY HYDRANGEA**

Moderate growing rounded shrub. Height 4 to 6 feet - spread 3 to 4 feet. Sun or part shade. Red to dark pink blooms in summer. Superb for accent specimen.

**Hydrangea macrophylla Serrata -
PURPLE TIERS SAWTOOTH HYDRANGEA**

Moderate growing rounded shrub. Height 3 to 6 feet - spread 3 to 6 feet. Likes partly sunny cool areas; north or east exposures best. Double violet/pink flowers in summer.

**Hydrangea macrophylla 'White' -
WHITE HYDRANGEA-**

Moderate growing rounded shrub. Height 4 to 10 feet - spread 4 to 10 feet. Likes partial shade. White flowers in summer. Magnesium or Lime application will help maintain good color. Stems often die back to the ground in winter, prune before leaves appear. Mulch well in the fall. *Several Varieties Available*

**Hydrangea macrophylla 'Lacecap' -
LACECAP HYDRANGEA-**

Slow growing, rounded shrub. Grows 4 to 6 feet tall. Needs moist, well-drained soil with plenty of humus. Likes morning sun and afternoon shade. Available in different shades of pink, white and blue. Keep soil acidic for blue and add magnesium or phosphate for pink shades. *Several Varieties Available*

**Hydrangea paniculata 'Grandiflora' -
PEEGEE HYDRANGEA-**

Rapid growing upright shrub. Height 6 to 12 feet - spread 8 to 10 feet. Sun or part shade. Good fall colors. Large white flowers in late

summer. Large shrub with large conical flowers. Can be trained into a small tree.

**Hydrangea paniculata 'Limelight' -
LIMELIGHTHYDRANGEA-**

Moderate growing upright shrub. Height 6 to 8 feet - spread 6 to 8 feet. Sun or part shade. Bright green blooms in mid summer change to pink in the fall.

**Hydrangea paniculata 'Ruby' -
ANGEL'S BLUSH HYDRANGEA-**

Rapid growing upright shrub. Height 8 to 12 feet - spread 6 to 10 feet. Sun or part shade. White flower clusters in summer turn rosy red as they age.

**Hydrangea quercifolia -
OAKLEAF HYDRANGEA-**

Moderate growing upright shrub. Height 5 to 8 feet. Spread 5 to 8 feet. Likes partial sun. Leaves are oak-leaf shaped. Produces white flower clusters in summer. Very hardy. Leaves are colorful in fall. Handles dry soils better than most hydrangeas.

**Hydrangea quercifolia 'Snow Queen' -
SNOW QUEEN OAKLEAF HYDRANGEA-**

Moderate growing upright shrub. Height 5 to 10 feet. Spread 4 to 8 feet. Likes partial sun. Leaves are oak-leaf shaped. Produces white flower clusters in summer. Very hardy. Leaves are colorful in fall.

**Hypericum androsaemum 'Albany Purple' -
ALBANY PURPLE ST. JOHN'S WORT -**

Slow growing mounding shrub. Height 2 to 3 feet - spread 2 to 3 feet. Likes sun or shade. Bright yellow flowers in mid summer. Good dark purple fall color. Drought tolerant plant. Evergreen in warmer climates, often dies to ground in cold.

**Hypericum frondosum 'Sunburst' -
SUNBURST ST. JOHN'S WORT -**

Slow growing mounding shrub. Height 10 to 12 inches - spread 18 to 24 inches. Likes sun or shade. Bright yellow flowers in summer. Nice ground cover. Drought tolerant plant. Evergreen in warmer climates, often dies to ground in cold.

**Hypericum kalmianum 'Blue Velvet' -
BLUE VELVET ST. JOHN'S WORT -**

Slow growing compact rounded shrub. Height 2 to 3 feet - spread 2 to 3 feet. Likes sun. Bright yellow flowers in mid summer. Blue green foliage. Drought tolerant.

**Hypericum 'moserianum' -
TRICOLOR ST. JOHN'S WORT -**

Slow growing, compact, arching shrub. Height 1 to 2 feet. Spread 1 to 2 feet. Likes full sun or partial shade. Leaves are cream-pink-green and mature to creamy green. Bright yellow flowers appear in summer.

**Hypericum patulum "Henry" -
HENRY'S ST. JOHN'S WORT**

Moderate growing mounding shrub. Height 3 to 4 feet - spread 3 to 4 feet. Sun or part shade. Golden yellow flowers in mid summer. Evergreen in warmer climates, often dies to ground in cold area. Light green foliage on graceful branches.

**Hypericum patulum 'Hidcote' -
HIDCOTE ST. JOHN'S WORT**

Moderate growing mounding shrub. Height 3 to 4 feet - spread 2 to 3 feet. Prefers part shade. Golden yellow flowers in mid summer. Evergreen in warmer climates, often dies to ground in cold area. Light green foliage on graceful branches.

**Kolkwitzia amabilis -
BEAUTY BUSH**

Moderate growing vase-like shrub. Height 8 to 12 feet - spread 6

to 8 feet. Sun or part shade. Good fall colors. Pinkish flowers in early summer. Pinkish brown bristly fruit in summer. Yellow throated flowers - gray green leaves - flaky bark.

Lagerstroemia indica

CRAPEMYRTLE-SEVERAL SEMI-HARDY VARIETIES ARE AVAILABLE - PECOS, ZUNI

Slow growing upright shrub. Height 5 to 12 feet - spread 4 to 8 feet. Likes full, hot sun. Likes acid soil. Flowers in late summer. Mulch well each winter after leaves drop off. Needs winter protection during the winter. Available in white, pink or red. Stems often die to the ground each winter in this area. Plants don't leaf out until late spring - do not give up too early in spring. Prune dead stems after leaves emerge in spring.

Ligustrum 'Variegatum'

VARIEGATED PRIVET

Moderate growing rounded shrub. Height 4 to 6 feet. Spread 3 to 5 feet. Green leaves with golden-yellow centers. Leaves are rugged and colorful. Makes an excellent hedge plant or can be grown as a foundation or screen plant. Likes full sun but will tolerate partial shade.

Ligustrum 'Vicaryi'

VICARY GOLDEN PRIVET

Moderate growing rounded shrub. Height 4 to 6 feet - spread 3 to 5 feet. Likes sun. Golden foliage looks best untrimmed, but is great for hedges or foundation plants. Very fragrant, small whitish flower clusters in spring.

Ligustrum vulgare "Cheyenne"

CHEYENNE ENGLISH PRIVET

Rapid growing shrub. Height 6 to 15 feet - spacing 4 to 6 feet. Likes sun. Narrow leaf, variety of English privet. Great for tall growing hedge or screen. Trim often while young to form dense structure. Trim a little wider at base than at top.

Ligustrum vulgare 'Lodense'

LODENSE PRIVET

Slow growing rounded shrub. Height 1 to 4 feet - spread 3 to 4 feet. Likes sun. Fragrant cream-colored flowers in late spring. Blue black berries in summer. Excellent as low screen or border - not much shearing required. Dark green leaves. One of the most popular small hedge plants.

Nandina domestica -

HEAVENLY BAMBOO

Slow growing upright semi-evergreen shrub. Height 3 to 8 feet - spread 18 to 36 inches. Sun or part shade. Good red fall colors. White flowers in summer. Red berries in fall. Despite the name it's not bamboo. Great substitution for the common burning bush. Does not drop all leaves in mild winters. Leaves stay red until new, green leaves appear in spring. Tolerates hot areas. May struggle in severe winters.

Nandina domestica 'Compacta'

DWARF HEAVENLY BAMBOO

Moderate growing compact semi-evergreen shrub. Height 4 to 5 feet - spread 3 feet. Likes part to full sun. Soft lacy foliage turns red in fall. Red berries and foliage through fall and winter.

Nandina domestica 'Firepower'

FIREPOWER HEAVENLY BAMBOO

Moderate growing semi-evergreen shrub. Height 2 to 3 feet - spread 2 to 3 feet. Likes full sun. One of best coloring Nandinas. Great for borders. Requires no pruning.

Nandina domestica 'Gulf Stream'

GULF STREAM DWARF NANDINA

Slow growing semi-evergreen shrub. Height 1.5 to 2 feet - spread 1 to 2 feet. Likes full sun or part shade. Good red fall colors, will keep leaves during mild winter. Colorful new growth.

Nandina domestica 'Harbour Dwarf'

HARBOUR DWARF NANDINA

Slow growing semi-evergreen shrub. Height 1.5 to 2 feet - spread 1 to 2 feet. Likes full sun or part shade. Good red fall colors, will keep leaves during mild winter. Colorful new growth. Densely branched plant - good small foundation shrub. Tolerates hot areas. May struggle in severe winters.

Perovskia atriplicifolia -

RUSSIAN SAGE

Moderate growing upright perennial shrub. Height 3 to 4 feet - spread 2 to 3 feet. Bluish flowers spikes. Likes sun. Blooms beginning in late summer. Prefers well drained soil. Silvery aromatic foliage. Cut back in spring. Drought tolerant. Attracts butterflies and bumblebees.

Philadelphus virginalis 'Dwarf Snowflake'

DWARF SNOWFLAKE MOCK ORANGE

Moderate growing rounded shrub. Height 3 to 4 feet - spread 3 to 4 feet. Likes sun. Fragrant double white flowers in late spring. Nice garden addition for small garden areas.

Philadelphus virginalis 'Minnesota Snowflake'

MINNESOTA SNOWFLAKE MOCK ORANGE

Moderate growing vase-like shrub. Height 6 to 8 feet - spread 3 to 5 feet. Likes sun. Fragrant, large white flowers in late spring. Smells like orange blossoms. Double flowers.

Philadelphus virginalis 'Natchez'

NATCHEZ MOCK ORANGE

Moderate growing vase-like shrub. Height 6 to 8 feet - spread 5 to 6 feet. Likes sun. Fragrant, large, single white flowers in late spring. Wonderful in bloom, fragrance like orange blossoms. Easy to maintain.

Philadelphus virginalis 'Virginal'

VIRGINAL MOCK ORANGE

Moderate growing vase-like shrub. Height 6 to 8 feet - spread 3 to 5 feet. Likes sun. Fragrant, large white flowers in late spring. Good screen or border plant. Double white flowers smell like orange blossoms.

Physocarpus opulifolius 'Coppertina'

COPPERTINA NINEBARK

Moderate growing upright shrub. Height 6 to 8 feet - spread 4 to 6 feet. Sun or part shade. Foliage is orange-copper in spring turns rich red in summer. Tolerates dry conditions once established.

Physocarpus opulifolius 'Dart's Gold'

DART'S GOLD NINEBARK

Moderate growing rounded shrub. Height 4 to 5 feet. Spread 3 to 5 feet. Golden-yellow leaves mature to lime green. Flowers are white with a tinge of pink. Blooms in summer. Likes full sun.

Physocarpus opulifolius 'Monlo'

DIABOLO NINEBARK

Moderate growing upright shrub. Height 5 to 7 feet - spread 4 to 6 feet. Sun or part shade. Reddish-purple foliage. Cream-white flowers in summer. Good as a hedge or screen.

Physocarpus opulifolius 'Seward'

SUMMER WINE NINEBARK

Moderate growing upright shrub. Height 4 to 6 feet - spread 4 to 6 feet. Sun or part shade. Dark purple foliage. Pink flowers in early summer. Red stems add winter interest.

Potentilla fruticosa 'Abbotswood'

ABBOTSWOOD POTENTILLA

Moderate growing rounded shrub. Height 24 to 30 inches - spread 24 to 30 inches. Likes sun. White flowers in spring and summer. Potentilla bloom all summer - few plants do.

Dwarf Nandina

**Potentilla fruticosa 'Gold Drop' -
GOLDDROPPOTENTILLA**

Moderate growing rounded shrub. Height 18 to 24 inches - spread 2 to 3 feet. Sun or part shade. Gold flowers in summer. Blooms all summer - few plants do. Trim to maintain dense shape. Nice shrub next to junipers. Leaves are smaller than most other varieties of potentilla.

**Potentilla fruticosa 'Gold Star' -
GOLDSTARPOTENTILLA**

Moderate growing rounded shrub. Height 1 to 3 feet - spread 1 to 3 feet. Likes sun. Large, single, yellow flowers in summer. Leaves out early in spring. Tough and drought tolerant Blooms all summer. Prune to keep compact.

**Potentilla fruticosa 'Goldfinger' -
GOLDFINGERPOTENTILLA**

Moderate growing rounded shrub. Height 24 to 30 inches - spread 24 to 30 inches. Likes sun. Deep yellow flowers in spring and summer. Large flowers - fairly compact growth. Prune severely early spring to keep compact plant.

**Potentilla fruticosa 'Katherine Dykes' -
KATHERINEDYKESPOTENTILLA**

Moderate growing rounded shrub. Height 2 to 4 feet - spread 2 to 4 feet. Likes sun. Pale yellow flowers in spring and summer. Blooms all summer - few plants do. Prune severely early spring.

**Potentilla fruticosa 'UMan' -
MANGOTANGOPOTENTILLA**

Moderate growing rounded shrub. Height 3 to 4 feet- spread 4 to 5 feet. Likes full sun. Yellow-orange flowers bloom all summer.

**Potentilla fruticosa 'Pink Beauty' -
PINKBEAUTYPOTENTILLA**

Slow growing rounded shrub. Height 2 to 3 feet - spread 2 to 3 feet. Full sun. Pink flowers spring through fall, prolific bloomer.

**Potentilla fruticosa 'Red Ace' -
REDACEPOTENTILLA**

Slow growing rounded shrub. Height 2 to 3 feet - spread 2 to 3 feet. Sun or part shade. Reddish-orange flowers in spring. Flowers fade to yellow during heat of summer.

**Potentilla fruticosa 'Red Robin' -
REDROBINPOTENTILLA**

Slow growing rounded shrub. Height 1 to 2 feet - spread 1 to 2 feet. Sun or part shade. Red flowers from late spring through mid summer. Deer and drought resistant.

**Potentilla fruticosa 'Red Sunset' -
REDSUNSETPOTENTILLA**

Moderate growing rounded shrub. Height 24 to 30 inches - spread 3 to 4 feet. Likes sun. Reddish-orange flowers in summer. Flowers fade to yellow. Potentilla blooms all summer.

**Potentilla fruticosa 'Sutters Gold' -
SUTTERS GOLDPOTENTILLA**

Moderate growing rounded shrub. Height 12 to 18 inches - spread 3 to 4 feet. Likes sun. Large yellow flowers in summer. Potentilla blooms all summer. Nice compact plant but tolerates pruning to keep even smaller.

**Prunus besseyi
WESTERN SANDCHERRY**

Moderate growing upright shrub. Height 3 to 6 feet- spread 4 to 6 feet. White flowers in spring. Good for mass plantings. 1/2 inch dark purple 'cherries' in summer are edible.

**Prunus cistena -
CISTENA FLOWERING PLUM**

Moderate growing upright shrub or tree. Height 4 to 10 feet - spread 4 to 8 feet. Likes sun. Pink flowers in spring. Very colorful

red leaves all summer and fall. Very colorful in yard as a specimen plant or trimmed into a hedge. No fruit. Trim often the first few years to maintain leaves at base of plant.

**Prunus glandulosa 'Rosea' -
PINK FLOWERING ALMOND**

Moderate growing rounded shrub. Height 3 to 5 feet - spread 3 to 4 feet. Sun or part shade. Double pink flowers in early spring. Likes the heat, not the cold. Loose, open growth habit unless trimmed. Nice specimen plant.

**Prunus tenella
DWARF RUSSIAN ALMOND**

Moderate growing upright shrub. Height 5 feet- spread 3 to 6 feet. White flowers in spring followed by red berries in summer. Likes full sun. Drought tolerant.

**Prunus triloba
FLOWERING ALMOND**

Moderate growing shrub. Height 10 to 15 feet- spread 10 to 15 feet. Pink double flowers in spring. Full sun to part shade. Has yellow fall color.

**Ribes aureum
GOLDEN CURRANT**

Moderate growing upright shrub. Height 6 to 8 feet- spread 6 to 8 feet. Likes sun to part shade. Small yellow flowers in spring are followed by red berries in summer which persist through fall. Berries are edible.

**Rhamnus frangula 'Columnaris' -
TALL HEDGE**

Moderate growing columnar shrub. Height 12 to 15 feet - spread 3 to 4 feet. Likes sun. Needs little if any pruning - but may be kept to 4' to 5' if pruned. Tends to be bare near the ground if not trimmed when young to keep compact. Excellent hedge for narrow areas without much trimming required.

**Rhus aromatica 'Gro-Low'
GRO-LOW SUMAC**

Moderate growing spreading shrub or small tree. Height 2 to 4 feet- spread 6 to 8 feet. Great fall colors. Spreads fast by suckers. Drought tolerant.

**Rhus glabra -
SMOOTH SUMAC**

Moderate growing upright tree or shrub. Height 8 to 12 feet - spread 8 to 12 feet. Likes sun. Good fall colors. Insignificant flowers in midsummer. Roots spread rapidly by suckers - tolerates heat, drought and poor soil. Great tree for dry slopes.

**Rhus glabra cismontana
CISMONTANA DWARF SMOOTH SUMAC**

Moderate growing widely spreading shrub. Height 5 feet- spread 5 feet. Green foliage turns bright red, orange, and purple in fall. Likes full sun. Drought tolerant.

**Rhus typhina -
STAGHORN SUMAC**

Moderate growing upright shrub or tree. Height 6 to 10 feet - spread 8 to 15 feet. Likes sun. Good red and orange fall colors. Insignificant flowers in mid summer. Roots spread fast. Fuzzy new branches look like deer's antlers. Drought tolerant, does not like wet soils.

**Rhus typhina 'Tiger Eyes'
TIGER EYE SUMAC**

Moderate growing upright shrub or small tree. Height 6 to 10 feet- spread 6 to 8 feet. Lacy cutleaf foliage. Green/yellow foliage brightens to yellow in summer then orange and red in the fall. Drought tolerant.

Tiger Eye Sumac

Rhus trilobata
SKUNKBUSH OR THREE-LEAF SUMAC

Slow growing spreading shrub. Height 3 to 6 feet- spread 3 to 6 feet. Red berries persist on plant. Orange/red fall color.

Rhus typhina 'Laciniata' -
CUTLEAF STAGHORN SUMAC

Moderate growing upright tree or shrub. Height 6 to 10 feet - spread 8 to 15 feet. Likes sun. Good red and orange fall colors. Insignificant flowers in mid summer. Reddish brown fuzzy fruit. Similar to Staghorn Sumac but has very serrated leaves. Tolerates poor conditions.

Salix discolor
PUSSY WILLOW

Rapid growing upright shrub or tree. Height 15 to 20 feet- spread 6 to 12 feet. Grayish flowers in early spring. Trim heavily to maintain desired size.

Salix repens argentea
CREEPING PUSSY WILLOW

Moderate growing spreading prostrate shrub. Height 1 to 3 feet- spread 1 to 6 feet. Likes full sun to part shade. Good for rock gardens.

Salix 'Hakura Nishiki' -
HAKURA NISHIKI WILLOW

Moderate growing spreading shrub. Height 3 to 5 feet. Spread 3 to 5 feet. The Japanese Dappled Willow is noted for the striking white-green-pink leaves. Regular shearing helps maintain size, shape and leaf coloration. Likes full sun to partial shade.

Salix purpurea 'nana' -
DWARF BLUE ARCTIC WILLOW

Moderate growing rounded shrub. Height 4 to 6 feet - spread 4 to 6 feet. Likes sun. Small, narrow blue-gray leaves. Good hedge or foundation shrub in areas other shrubs won't survive. Tolerates wet soil conditions. Very cold hardy.

Salix purpurea 'Canyon Blue'
CANYON BLUE WILLOW

Moderate growing rounded shrub. Height 3 to 5 feet- spread 3 to 5 feet. Has fine bluish-gray leaves. Tolerates heavy pruning. Prefers full sun.

Sambucus canadensis -
ADAMS ELDERBERRY

Moderate growing, upright shrub. Height 8 to 10 feet. Spread 8 to 10 feet. White blooms in clusters form late spring to early summer. Dark purple fruit in fall. Attracts birds.

Sambucus canadensis 'Nova' -
NOVA ELDERBERRY

Moderate growing, upright shrub. Height 6 to 8 feet. Spread 4 to 5 feet. White flowers in spring. Likes full sun. Purple berries in fall. Needs a pollinator.

Sambucus canadensis 'York' -
YORK ELDERBERRY

Moderate growing, upright shrub. Height 6 to 8 feet. Spread 4 to 6 feet. White blooms in clusters in spring. Dark purple fruit in fall. Attracts birds. Need a pollinator.

Sambucus nigra 'Black Beauty' -
BLACK BEAUTY ELDERBERRY

Moderate growing, spreading plant. Height 8 to 12 feet. Spread 6 to 10 feet. Likes full sun. Dark purple-black leaves add variety to the landscape. Massive, pink flowers in summer contrast well with foliage. Cut plant back severely each spring to keep plant small.

Sambucus nigra 'Black Lace' -
BLACK LACE ELDERBERRY

Moderate growing, spreading shrub. Height 6 to 8 feet. Spread 5 to 6 feet. Likes full sun. Dark purple-black leaves have deeply lobed,

similar to a Japanese Maple. Massive pink flowers in summer add interest to the shrub.

Sambucus nigra 'Frances' -
VARIEGATED ELDERBERRY

Moderate growing upright shrub. Height 6 to 8 feet. Spread 4 to 5 feet. Likes full sun to part shade. Cream, pale green, and yellow variegated foliage. White flowers in June. Purple berries in fall.

Sambucus nigra 'Madonna' -
MADONNA ELDERBERRY

Moderate growing rounded shrub. Height 4 to 6 feet. Spread 3 to 4 feet. Likes full sun to part shade. White fragrant flowers in early summer. Green leaves with yellow variegations. Berries attract birds.

Sambucus nigra 'Thundercloud' -
THUNDERCLOUD ELDERBERRY

Moderate growing shrub. Height 8 to 10 feet. Spread 8 to 10 feet. Likes full sun. Burgundy leaves add variety to the landscape. Reddish pink flowers in summer. Dark fruit in fall.

Sambucus racemosa 'Aurea' -
GOLDEN ELDERBERRY

Fast growing, spreading shrub. Height 8 to 12 feet. Spread 6 to 10 feet. Likes full sun. Golden-yellow leaves are colorful all summer. Creamy white clusters of flowers in spring produce edible elderberries in fall. Can be used as a border or screen plant. This is not a plant for small areas.

Sambucus racemosa 'Sutherland Gold' -
SUTHERLAND GOLD ELDERBERRY

Moderate growing shrub. Height 5 to 10 feet. Spread 4 to 6 feet. Likes part sun. Lacy golden leaves. White blooms in early spring. Prune to maintain size.

Spiraea bumalda 'Anthony Waterer' -
ANTHONY WATERER SPIREA

Moderate growing rounded shrub. Height 2 to 3 feet - spread 2 to 3 feet. Sun or part shade. Rose-red flowers in spring and summer. Good red fall colors. Prune severely late winter or early spring. Will bloom repeatedly during summer if trimmed lightly all summer. Makes a nice border plant.

Spiraea bumalda 'Dart's Red' -
DART'S RED SPIREA

Moderate growing rounded shrub. Height 2 to 3 feet - spread 4 to 5 feet. Sun or part shade. Deep carmine red flowers in late spring.

Spiraea bumalda 'Flaming Mound' -
FLAMING MOUND SPIREA

Moderate growing rounded shrub. Height 2 to 4 feet - spread 2 to 5 feet. Sun or part shade. Rose-red flowers in late spring. Will re-bloom if old flowers are removed. Great for hot sunny areas, but also likes part shade. New leaves are tinged red.

Spiraea bumalda 'Goldflame' -
GOLD FLAME SPIREA

Moderate growing rounded shrub. Height 3 to 4 feet - spread 3 to 4 feet. Sun or part shade. Rose-red flowers in summer. New leaves emerge reddish and turn yellow as they mature. Leaves fade to green in summer and turn red in fall. Very colorful plant entire summer. Trim severely early spring to control size and to help make look more natural.

Spiraea bumalda 'Limemound' -
LIME MOUND SPIREA

Moderate growing rounded shrub. Height 2 to 3 feet - spread 2 to 3 feet. Likes sun or partial shade. Light pink flowers in summer. Colorful yellow leaves. Yellow leaves turn reddish in fall. One of the prettiest yellow plants for the garden. Good in rock

Limemound

gardens or next to the house. Trim all branches to 6" tall before leaves appear to keep plant small and compact.

**Spiraea dolchica -
DOLCHICA SPIREA**

Slow growing mounding shrub. Height 2 to 3 feet - spread 2 to 3 feet. Likes sun. Purplish pink flowers in summer. Dwarf plant. Bronzed new growth. Serrated leaves on graceful branches add a different texture to yard.

**Spiraea japonica 'Alpina' -
ALPINE SPIREA**

Slow growing, compact shrub. Height 1 to 1.5 feet. Spread 1 to 2 feet. Small, blue-green leaves. Dainty, light-pink flowers. Blooms late spring. Great to mix with perennial flowers.

**Spiraea japonica 'Little Princess' -
LITTLE PRINCESS SPIREA**

Moderate growing spreading shrub. Height 2 to 3 feet - spread 2 to 4 feet. Likes sun. Rose-red flowers in early summer. Small, bright-green leaves. Trim often to maintain shape. Excellent small shrub for borders or foundations. Very showy.

**Spiraea japonica 'Magic Carpet' -
MAGIC CARPET SPIREA**

Slow to moderate growing, mounding shrub. Height 1 to 2 feet. Spread 1 to 2 feet. Dwarf version of Goldflame Spiraea. Golden-green leaves have a reddish tip when new. Leaves turn reddish in fall. Pink flowers in mid summer. Summer pruning, after blossoms fade, stimulates a flush of new blossoms. Very colorful, hardy plant for foundations, or border gardens.

**Spiraea japonica 'Mertyann'-
DAKOTAGOLDCHARM SPIREA**

Fast growing compact rounded shrub. Height 2 to 3 feet - spread 2 to 3 feet. Sun or part shade. Dark pink blooms in summer. Red fall color. Drought and heat tolerant. Low maintenance.

**Spiraea japonica 'Neon Flash' -
NEON FLASH SPIREA**

Moderate growing rounded shrub. Height 2 to 3 feet - spread 2 to 3 feet. Sun or part shade. Rose-red flowers in spring and summer. Attractive red fall colors. Good variety that is a replacement for Anthony Waterer Spiraea. Trim old flowers when they fade to stimulate another flush of blossoms for summer and fall. Trim severely before leaves appear to maintain smaller size.

**Spiraea japonica 'Shirobana' -
SHIROBANA SPIREA**

Moderate growing rounded shrub. Height 2 to 3 feet - spread 3 to 4 feet. Sun or part shade. White, pink and red flowers all in the same cluster. Bloom in mid-summer. Trim often to maintain size and shape or let grow natural.

**Spiraea nipponica 'Snowmound' -
SNOWMOUND SPIREA**

Moderate growing spreading shrub. Height 3 to 5 feet - spread 3 to 5 feet. Sun or part shade. Small white flowers in late spring. Small, narrow leaves. Nice informal hedge plant. Very dense. Flowers emerge on the tips of the upright branches.

**Spiraea thunbergii 'Ogon' -
MELLOW YELLOW SPIREA**

Moderate growing rounded shrub. Height 2 to 3 feet - spread 2 to 3 feet. Sun or part shade. White flowers in spring and summer. Golden-yellow, willow-like leaves. Graceful, arching branches. Trim severely before leaves appear to maintain size and shape.

**Spiraea vanhouttei -
BRIDLEWREATH-VANHOUTTE SPIREA**

Moderate growing vase-like shrub. Height 4 to 6 feet - spread 4 to 6 feet. Sun or part shade. White clusters of flowers cover the branches in early summer. Graceful, long arching branches cov-

ered with blossoms. Trim after blossoms fade to maintain drooping shape, not as attractive if trimmed into formal hedge. Small blue-gray leaves.

**Spiraea vanhouttei 'Renaissance'-
RENAISSANCE VANHOUTTE SPIREA**

Fast growing vase-like shrub. Height 5 to 7 feet - spread 6 to 8 feet. Likes full sun. White flowers in mid spring on graceful arching branches. Orange/red fall color.

**Symphoricarpus albus
COMMON SNOWBERRY**

Moderate growing rounded shrub. Height 3 to 6 feet- spread 3 to 6 feet. Likes full sun to part shade. 1/2 inch white berries are very ornamental. Spreads by suckering. Drought tolerant.

**Symphoricarpus chenaulti 'Hancock'
HANCOCK SNOWBERRY**

Moderate growing spreading shrub. Height 2 to 6 feet- spread 4 to 6 feet. Pinkish flowers in spring followed by rose-pink berries in summer. Likes full sun. Somewhat drought tolerant.

**Symphoricarpus orbiculatus
REDSNOWBERRY**

Moderate growing spreading shrub. Height 3 to 5 feet- spread 4 to 8 feet. Arching branches. Prefers part sun. Red-purple berries in late summer. Flowers and fruit produced on current season's growth. Good for erosion control.

**Syringa chinensis -
CHINESE LILAC**

Moderate growing vase-like shrub. Height 6 to 12 feet - spread 4 to 6 feet. Likes sun. Fragrant rosy-purple flowers in late spring. Performs well in mild winters as well as hot summers. Prune after blossoms drop to maintain shape.

**Syringa patula -
KOREAN LILAC**

Slow growing upright shrub. Height 3 to 6 feet - spread 2 to 4 feet. Likes sun. Lavender-pink flowers in late spring. Prune to size and shape after blossom fall. Dense & twiggy

**Syringa patula 'Miss Kim' -
MISS KIM LILAC -**

Moderate growing rounded shrub. Height 3 to 4 feet - spread 3 to 4 feet. Likes sun. Deep-purple flowers in mid spring. Blooms turn icy blue in May. Nice dwarf hedge plant. Fragrant flowers are nice next to front entrances.

**Syringa persica -
PERSIAN LILAC**

Moderate growing vase-like shrub. Height 4 to 6 feet- spread 4 to 6 feet. Likes sun. Fragrant pale-lilac flowers in late spring. Small leaf - profuse bloomer. Good screening plant.

**Syringa prestonia 'James McFarland' -
JAMES MCFARLAND PRESTON LILAC -**

Rapid growing upright shrub. Height 8 to 12 feet - spacing 5 to 8 feet. Likes sun. Fragrant rosy-pink flowers in late spring. Does well in mild climates. Vigorous grower - dependable bloomer - quite showy.

**Syringa prestonia 'Miss Canada' -
MISS CANADA PRESTON LILAC -**

Rapid growing upright shrub. Height 8 to 12 feet - spacing 5 to 8 feet. Likes sun. Fragrant, rose-pink flowers in late spring. Vigorous grower - dependable bloomer - very showy. Very hardy plant, will grow in cold climates.

**Syringa 'Pocahontas' -
POCAHONTAS LILAC -**

Rapid growing upright shrub. Height 8 to 12 feet - spacing 5 to 8 feet. Likes sun. Fragrant, deep-reddish purple, single flowers in spring. Vigorous grower, dependable bloomer - very hardy.

**Syringa vulgaris -
COMMON LILAC**

Moderate growing vase-like shrub. Height 6 to 12 feet - spread 6 to 12 feet. Likes sun. Fragrant lilac-purple flowers in late spring. The fragrant flowers are on everyone's 'favorite' list. Remove older branches to help maintain vigor. Blossoms darken with age - the older plants have a deep purple color.

**Syringa vulgaris 'Angel White' -
ANGEL WHITE LILAC**

Moderate growing spreading shrub. Height 6 to 8 feet - spread 4 to 6 feet. Likes sun. Fragrant white flowers in spring. Nice screening plant. Remove older branches to help maintain size and shape of plant.

**Syringa vulgaris 'Belle de Nancy' -
BELLE DE NANCY LILAC -**

Moderate growing vase-like shrub. Height 6 to 12 feet - spread 6 to 12 feet. Likes sun. Fragrant pinkish-purple flowers in late spring. Double flowers in cone shaped clusters.

**Syringa vulgaris 'Charles Joly' -
CHARLES JOLY LILAC -**

Moderate growing vase-like shrub. Height 6 to 12 feet - spread 6 to 12 feet. Likes sun. Fragrant reddish-purple flowers in mid spring. Double flowers in cone shaped clusters. Prune after flowers fade. Remove older branches to help plant bloom and grow vigorously. Flowers darken as plant matures.

**Syringa vulgaris 'Ellen Wilmott' -
ELLEN WILMOTT LILAC -**

Moderate growing vase-like shrub. Height 6 to 12 feet - spread 6 to 12 feet. Likes sun. Fragrant double white flowers in late spring. Trim after flowers drop in spring.

**Syringa vulgaris 'Katherine Havemeyer' -
KATHERINE HAVEMEYER LILAC -**

Moderate growing vase-like shrub. Height 6 to 12 feet - spread 6 to 12 feet. Likes sun. Fragrant double pink flowers in late spring. A little lime is helpful to maintain its color.

**Syringa vulgaris 'Lavender Lady' -
LAVENDER LADY LILAC**

Moderate growing spreading shrub. Height 6 to 8 feet - spread 4 to 6 feet. Likes sun. Fragrant Lavender flowers in spring. Nice screening plant.

**Syringa vulgaris 'Ludwig Spaeth' -
LUDWIG SPAETH LILAC -**

Moderate growing vase-like shrub. Height 6 to 12 feet - spread 6 to 12 feet. Likes sun. Fragrant purple flowers in late spring. Single flowers in cone shaped clusters. All lilacs may take several years to darken to true color. Older plants will have a deep purple flower.

**Syringa vulgaris 'Mme. Lemoine' -
MME. LEMOINE LILAC -**

Moderate growing vase-like shrub. Height 6 to 12 feet - spread 6 to 12 feet. Likes sun. Fragrant, double, white flowers in late spring.

**Syringa vulgaris 'Monore' -
BLUE SKIES LILAC**

Moderate growing spreading shrub. Height 6 to 8 feet - spread 4 to 6 feet. Likes sun. Fragrant lavender flowers in spring. Nice screening plant. Remove older branches to help maintain size and shape of plant.

**Syringa vulgaris 'President Grevy' -
PRESIDENT GREVY LILAC**

Moderate growing spreading shrub. Height 6 to 10 feet - spread 5 to 8 feet. Likes sun. Lilac blue flowers in spring. Nice screening plant. Remove older branches to help maintain size and shape of plant.

Viburnum

**Syringa vulgaris 'Sensation' -
SENSATION LILAC -**

Moderate growing vase-like shrub. Height 6 to 8 feet - spread 5 to 8 feet. Likes sun. Fragrant purple & white variegated flowers in spring. Striking while in bloom.

**Viburnum bodnantense 'Pink Dawn' -
PINK DAWN VIBURNUM**

Moderate growing upright shrub. Height 6 to 10 feet - spread 4 to 8 feet. Sun or part shade. Fragrant pink flowers in early spring. Red berries in summer. Very fragrant flowers before leaves emerge. Leathery looking leaves. Most viburnum plants are deer resistant - they generally leave them alone.

**Viburnum burkwoodii -
BURKWOOD VIBURNUM**

Moderate growing upright semi-evergreen shrub. Height 6 to 10 feet - spread 4 to 6 feet. Sun or part shade. Fragrant white flowers in spring. Blue-black berries in summer. Glossy leaves drop in cold areas - remain in mild winters. Most viburnum plants are deer resistant - they generally leave them alone.

**Viburnum carlesii -
KOREAN SPICE VIBURNUM**

Moderate growing upright shrub. Height 4 to 6 feet - spread 4 to 6 feet. Sun or part shade. Fragrant white flowers in mid spring. Blue black berries in summer. Open growth habit - flowers pink in bud, open white. Most viburnum plants are deer resistant - they generally leave them alone.

**Viburnum davidii -
DAVID'S VIBURNUM**

Slow growing mounding shrub. Height 2 to 3 feet. Spread 2 to 3 feet. Prefers shade or partial sun; not hot sunny area. Needs an acid soil condition to grow well, similar to a Rhododendron. White flowers in May produce blue fruit in fall. Leaves are evergreen. Spray leaves with Wilt Prufe in fall for winter care.

**Viburnum dentatum 'Autumn Jazz' -
AUTUMN JAZZ VIBURNUM**

Moderate growing upright shrub. Height 10 to 12 feet. Spread 5 to 8 feet. Nice vase shape plant. White, flat-topped flowers in late spring. Produces blue-black fruit in fall that birds love. Green leaves turn yellow-orange-red-burgundy in the fall - very colorful in fall. No significant insect or disease problems. Prune after flowers fade to control size. Most viburnum plants are deer resistant - they generally leave them alone.

**Viburnum lantana 'Mohican' -
MOHICAN VIBURNUM**

Slow growing rounded shrub. Height 6 to 8 feet. Spread 6 to 8 feet. Dark green foliage with creamy white flowers in late spring. Orange/red berries in mid summer.

**Viburnum opulus 'Compacta' -
DWARF SNOWBALL - CRANBERRY BUSH**

Slow growing mounded shrub. Height 3 to 4 feet - spread 3 to 4 feet. Sun or part shade. Lots of white flowers followed by masses of red fruit. Birds love this fruit in fall and winter. Nice filler shrub or small hedge. Small glossy tri-lobed leaves.

**Viburnum opulus 'Nanum' -
DWARF SNOWBALL - CRANBERRY BUSH**

Slow growing mounded shrub. Height 2 to 3 feet - spread 2 to 3 feet. Sun or part shade. Few flowers or fruit. Nice filler shrub or small, informal hedge. Small glossy tri-lobed leaves. Most viburnum plants are deer resistant - they generally leave them alone.

**Viburnum opulus 'Sterile' -
COMMON SNOWBALL**

Fast growing upright shrub. Height 10 to 15 feet - spread 4 to 6 feet. Sun or part shade. Good fall colors. White flowers in late

spring. Large “snowball” white flower clusters. Yields no fruit - watch for aphids. Most viburnum plants are deer resistant - they generally leave them alone.

**Viburnum plicatum ‘Popcorn’ -
POPCORN VIBURNUM**

Moderate growing upright shrub. Height 4 to 6 feet. Spread 3 to 5 feet. This Japanese snowball is covered with hundreds of small, round popcorn balls. Very spectacular when blooming. No significant insect or disease problems. Prune after flowers fade to control size. Most viburnum plants are deer resistant - they generally leave them alone.

**Viburnum rhytidophylloides ‘Alleghany’ -
LEATHERLEAF VIBURNUM**

Moderate growing upright shrub. Height 6 to 10 feet. Spread 5 to 8 feet. Likes full sun to partial shade but will grow in shade. Leathery, green leaves hold well through the winter. Semi-evergreen; leaves will drop off in severe weather conditions. Large, creamy-white flowers in May produce red berries in summer. Most viburnum plants are deer resistant - they generally leave them alone.

**Viburnum plicatum ‘Tomentosum’ -
DOUBLEFILE VIBURNUM**

Moderate growing rounded shrub. Height 8 to 15 feet - spread 10 to 15 feet. Sun or part shade. Good red fall colors. White flowers in spring. Red berries in late summer. Very showy shrub, unusual layering effect while blooming. Most viburnum plants are deer resistant - they generally leave them alone.

**Viburnum trilobum ‘Alfredo’ -
ALFREDO VIBURNUM**

Medium to slow growing rounded shrub. Height 5 to 6 feet. Spread 4 to 5 feet. Tolerates full sun or partial shade. Compact plant that makes a nice foundation shrub. Can be used as an informal hedge. Leaves turn red in fall. Large white clusters of flowers in May produce red berries in summer. No significant insect or disease problems. Prune after flowers fade to control size. Most viburnum plants are deer resistant - they generally leave them alone.

**Viburnum trilobum ‘Compactum’ -
DWARF CRANBERRY VIBURNUM**

Moderate growing rounded shrub. Height 4 to 5 feet - spread 3 to 6 feet. Likes sun. White flowers in spring. Red berries in late summer. Dwarf snowball bush. Flowers are flat headed snowball-like clusters instead of the round flower clusters. Aphid resistant. Most viburnum plants are deer resistant - they generally leave them alone.

**Viburnum trilobum ‘Wentworth’ -
WENTWORTH CRANBERRY BUSH VIBURNUM**

Moderate growing upright shrub. Height 10 to 12 feet. Spread 8 to 10 feet. White flowers in spring, red fruit in fall is edible. Red fall color.

**Weigela florida ‘Alexandra’ -
WINE & ROSES WEIGELA**

Moderate growing upright shrub. Height 5 to 7 feet - spread 4 to 6 feet. Sun or part shade. Rosy-Pink flowers in late spring. Flowering sometimes repeats in late summer or early fall if trimmed after blossoms drop. Dark, Burgundy-purple leaves give excellent color for your yard.

**Weigela florida ‘Briant Rubidor’ -
BRIANT RUBIDOR WEIGELA**

Moderate growing rounded shrub. Height 4 to 6 feet - spread 3 to 4 feet. Sun or part shade. Spreading branches with small oval, yellow to light green leaves with yellow margins. Dark Ruby-red flowers.

Wine & Roses Weigela

**Weigela florida ‘Brigela’ -
FRENCHLACE WEIGELA**

Moderate growing rounded shrub. Height 4 to 5 feet. Spread 3 to 4 feet. Green leaves with yellow margins. Dark red flowers. Leaves turn orange to burgundy in fall. Nice, colorful plant next to houses or along fence lines.

**Weigela florida ‘Bristol Ruby’ -
BRISTOL RUBY WEIGELA**

Moderate growing upright shrub. Height 5 to 7 feet - spread 4 to 6 feet. Sun or part shade. Ruby red flowers in late spring. Flowering sometimes repeats in late summer or early fall if trimmed after blossoms drop.

**Weigela florida ‘Bristol Snowflake’ -
BRISTOL SNOWFLAKE WEIGELA**

Moderate growing upright shrub. Height 5 to 7 feet - spread 4 to 6 feet. Sun or part shade. Pinkish buds open to white flowers in late spring. Flowering sometimes repeats in late summer or early fall if trimmed after blossoms drop.

**Weigela florida ‘Dark Horse’ -
DARK HORSE WEIGELA**

Moderate growing rounded shrub. Height 2 to 3 feet - spread 2 to 3 feet. Sun or part shade. Magenta pink flowers in late spring. Dark-purplish green foliage. Prune shrub after blooming to shape plant and stimulate another flush of flowers.

**Weigela florida ‘Elvera’ -
MIDNIGHT WINE WEIGELA**

Slow to moderate growing rounded shrub. Height 1 to 2 feet tall. Spread 1 to 2 feet. Dwarf version of Wine & Roses. Dark burgundy foliage with pink flowers. Likes full sun but will tolerate partial shade. New introduction.

**Weigela florida ‘Fine Wine’ -
FINE WINE WEIGELA**

Moderate growing rounded shrub. Height 2 to 4 feet tall. Spread 3 to 4 feet. Sun to part shade. Dark purple foliage. Pink blooms in late spring.

**Weigela florida ‘Goldrush’ -
GOLDRUSH WEIGELA**

Moderate growing rounded shrub. Height 4 to 5 feet. Spread 3 to 4 feet. Sun or part shade. Green and gold variegated foliage. Light pink flowers spring into summer. Attracts hummingbirds.

**Weigela florida ‘Java Red’ -
JAVARED WEIGELA**

Moderate growing rounded shrub. Height 4 to 6 feet - spread 4 to 6 feet. Sun or part shade. Deep rose pink flowers in late spring. Purplish green foliage - flowers red in bud open to pink.

**Weigela florida ‘Minuet’ -
MINUET WEIGELA**

Moderate growing rounded shrub. Height 3 to 5 feet - spread 3 to 4 feet. Sun or part shade. Pink flowers in early summer. Trim to desired shape & size. Great next to house or fence line. Very colorful when blooming.

**Weigela florida ‘Pink Poppet’ -
PINK POPPET WEIGELA**

Moderate growing rounded shrub. Height 2 to 3 feet. Spread 2 to 3 feet. Compact, ball shaped plant. Bright green leaves. Light-pink flowers. Strong, showy bloomer.

**Weigela florida ‘Pink Princess’ -
PINK PRINCESS WEIGELA**

Moderate growing upright shrub. Height 5 to 6 feet - spread 3 to 5 feet. Likes sun. Bright pink flowers in late spring. Easily maintained. New introduction - profuse bloomer - hardier than most weigela.

Pink Princess Weigela

Weigela florida 'Red Prince' -

RED PRINCE WEIGELA

Moderate growing spreading shrub. Height 5 to 8 feet - spread 4 to 6 feet. Likes sun. Rich red flowers in mid spring. Rich green leaves - showy red bloom doesn't fade with time.

Weigela florida 'Variegata Nana' -

DWARF VARIEGATED WEIGELA

Moderate growing rounded shrub. Height 3 to 5 feet - spread 3 to 4 feet. Likes sun or shade. Soft pink flowers in late spring. Attractive plant. Soft green foliage with creamy white edges - compact plant.

Yucca baccata 'Daytil' -

DAYTIL YUCCA

Slow growing irregular evergreen shrub. Height 2 to 3 feet - spread 2 to 3 feet. Likes sun. White flowers in summer, doesn't bloom every year. Unusual drought tolerant plant. Great for hot dry areas. Long, thick, curled leaves are very interesting for dry, desert gardens. Does not tolerate wet soils. Sharp tips on leaves.

Yucca filamentosa -

ADAM'S NEEDLE YUCCA

Slow growing evergreen shrub. Height 3 to 4 feet - spread 3 to 4 feet. Sun. White spike flowers in late-spring, may not bloom every year. Tolerates heat and drought. Rugged easily grown plant - will form mounding clumps with age. Long, narrow, green leaves with sharp tips.

Yucca filamentosa 'Golden Sword' -

GOLDEN SWORD YUCCA

Slow growing evergreen shrub. White spike flowers in summer, may not bloom every year. A beautiful accent plant. Striking yellow leaves with green margins. A very rugged and easy to grow plant. Does not like wet areas, like to be hot and dry.

Yucca filamentosa 'Ivory Tower' -

IVORY TOWER YUCCA

Slow growing evergreen shrub. Height 3 to 4 feet - spread 3 to 4 feet. Sun. White spike flowers in late-spring, may not bloom every year. Tolerates heat and drought. Rugged easily grown plant - will form mounding clumps with age.
